It Ends with Us Dec 04 2020 In this “brave and heartbreaking novel that digs its claws into you and doesn’t let go, long after you’ve finished it” (Anna Todd, New York Times bestselling author) from the #1 New

York Times bestselling author of *All Your Perfects*, a workaholic with a too-good-to-be-true romance can't stop thinking about her first love. Lily hasn't always had it easy, but that's never stopped her from working hard for the life she wants. She's come a long way from the small town where she grew up—she graduated from college, moved to Boston, and started her own business. And when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily's life seems too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He's also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn't hurt. Lily can't get him out of her head. But Ryle's complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his "no dating" rule, she can't help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan—her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, *It Ends with Us* is "a glorious and touching read, a forever keeper. The kind of book that gets handed down" (USA TODAY).

The Sum of Us Nov 22 2019 NEW YORK TIMES BESTSELLER • LONGLISTED FOR THE NATIONAL BOOK AWARD • One of today's most insightful and influential thinkers offers a powerful exploration of inequality and the lesson that generations of Americans

have failed to learn: Racism has a cost for everyone—not just for people of color. WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • ONE OF THE BEST BOOKS OF THE YEAR: Time, The Washington Post, St. Louis Post-Dispatch, Ms. magazine, BookRiot, Library Journal • LONGLISTED FOR THE ANDREW CARNEGIE MEDAL • “This is the book I’ve been waiting for.”—Ibram X. Kendi, #1 New York Times bestselling author of How to Be an Antiracist Heather McGhee’s specialty is the American economy—and the mystery of why it so often fails the American public. From the financial crisis of 2008 to rising student debt to collapsing public infrastructure, she found a root problem: racism in our politics and policymaking. But not just in the most obvious indignities for people of color. Racism has costs for white people, too. It is the common denominator of our most vexing public problems, the core dysfunction of our democracy and constitutive of the spiritual and moral crises that grip us all. But how did this happen? And is there a way out? McGhee embarks on a deeply personal journey across the country from Maine to Mississippi to California, tallying what we lose when we buy into the zero-sum paradigm—the idea that progress for some of us must come at the expense of others. Along the way, she meets white people who confide in her about losing their homes, their dreams, and their shot at better jobs to the toxic mix of American racism and greed. This is the story of how public goods in this country—from

parks and pools to functioning schools—have become private luxuries; of how unions collapsed, wages stagnated, and inequality increased; and of how this country, unique among the world’s advanced economies, has thwarted universal healthcare. But in unlikely places of worship and work, McGhee finds proof of what she calls the Solidarity Dividend: the benefits we gain when people come together across race to accomplish what we simply can’t do on our own. *The Sum of Us* is not only a brilliant analysis of how we arrived here but also a heartfelt message, delivered with startling empathy, from a black woman to a multiracial America. It leaves us with a new vision for a future in which we finally realize that life can be more than a zero-sum game.

Simplified Methods for Estimating Gross Regional Product as a Tool of Policy Analysis Jul 19 2019

The United States and Somoza, 1933-1956 Mar 27 2020

The first in-depth look at U.S. relations with the founder of the Somoza family dynasty in Nicaragua, Clark's book breaks new ground in diplomatic history. Based solidly on the diplomatic record, the work takes a strong revisionist stance, arguing against the commonly accepted view that the United States created the Somoza regime and kept the first Somoza in power as a surrogate to protect U.S. interests in Central America. Clark's work shows that throughout the 1930s and 1940s there was a consistent

effort by the U.S. government to oppose dictatorship in Nicaragua, an effort not diminished until Cold War obsessions finally overtook--and eventually consumed--Washington's Latin American policymakers.

Berlin Airlift Nov 03 2020 In June 1948, Joseph Stalin stopped all road and rail traffic coming into and out of the Allied sector of Berlin. He simultaneously cut off all electricity to the city, leaving only a 20-mile-wide sector of air corridors and one way to get supplies to desperate, starving people. The United States, using the only method it could, led Allies in mobilizing an unprecedented airlift of thousands of tons of supplies each day. By September 1948, the airlift was transporting food, coal, medical supplies, and other necessities into West Berlin as aid for the residents. At the same time, the Russian military threatened to strike down any aircraft caught flying outside of the corridor. Finally, by April of 1949, Russia announced their intent to end the blockade, and in August of the same year, the United States airlift operation was terminated.

The Others Oct 22 2019 Shepard shows how the human relationship with animals has altered over time: as we have prospered, they have vanished.

Saving Us Aug 20 2019 United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future in this nationally bestselling “optimistic view on why collective action is still possible—and how it can be realized” (The New York Times). Called “one of the nation’s most effective communicators on climate change” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In *Saving Us*, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The Nature Conservancy. Drawing on

interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. *Saving Us* leaves us with the tools to open a dialogue with your loved ones about how we all can play a role in pushing forward for change.

Confidential U.S. State Department Central Files Jul 23 2022 Here also are the documents that tell what the U.S. State Department knew about the repressive nature of the shah's rule and the degree of popular support he enjoyed. Martial law, imposed after Mohammad Mosaddeq's overthrow in 1953, was maintained until 1957. As the collection details, the shah continued to exercise strict political controls even after ending martial law. In 1955, Iran entered the Baghdad Pact with Britain, Iraq, Turkey, and Pakistan. In March 1959, Iran signed a bilateral defense agreement with the United States. The Central Files offer insights into the shah's desire for close relations with the United States-which resulted in these alliances-and into his requests for U.S. military and economic aid.

It Starts with Us Oct 26 2022 Before It Ends with Us, it started with Atlas. Colleen Hoover tells fan favorite Atlas's side of the story and shares what comes next in this long-anticipated sequel to the "glorious and touching" (USA TODAY) #1 New York Times bestseller It Ends

with Us. Lily and her ex-husband, Ryle, have just settled into a civil coparenting rhythm when she suddenly bumps into her first love, Atlas, again. After nearly two years separated, she is elated that for once, time is on their side, and she immediately says yes when Atlas asks her on a date. But her excitement is quickly hampered by the knowledge that, though they are no longer married, Ryle is still very much a part of her life—and Atlas Corrigan is the one man he will hate being in his ex-wife and daughter’s life. Switching between the perspectives of Lily and Atlas, *It Starts with Us* picks up right where the epilogue for the “gripping, pulse-pounding” (Sarah Pekkanen, author of *Perfect Neighbors*) bestselling phenomenon *It Ends with Us* left off. Revealing more about Atlas’s past and following Lily as she embraces a second chance at true love while navigating a jealous ex-husband, it proves that “no one delivers an emotional read like Colleen Hoover” (Anna Todd, *New York Times* bestselling author).
